Goes Into Effect.

LINCOLN. Dec. 4 .- (Special.) - The secretaries of the State Board of Transportation discovered that they had not given sufficient notice to the railroad companies in ordering that the old rates should be put back in force on and after the 5th day of December. force on and after the 5th day of December, and made an extension of the time to the 7th of December in order that the required ten served the following notice:

J. Deweese as attorney for the B. & M.

In the making of said change the interstate rates to Kansas City and other points will necessarily be affected, and the rates to such points being interstate rates, cannot be legally changed from what they are at present without giving legal notice as required by the Interstate Commerce commission. And this defendant represents to the board that it has already sent out notices to the Interstate Commerce commission of its intention to revert to the rate per carload, as required by this honorable hody, within ten days, which will not expire until the 16th day of December, 1897.

The board granted the request for the ex-

In the record:

In the matter of the order made by the State Board of Transportation in the case of Tibbles against the Chicago, Rock Island & Pacific Railway company and others, requiring the defendants to restore the old carload rate on or before. *seember 5, 187, we learn that the roads, or a part of them have notified the interstate Commerce commission as required by laz, ten days notice being necessary before a change in rates can fall in the lith of December to complete said notice, we would therefore recommend that the date for the taking of effect of said order be extended until the 16th day of December, 187.

SECRETARIES MAKE A STATEMENT.

SECRETARIES MAKE A STATEMENT. The secretaries of the State Board of Trans-

ment regarding freight rates:

No complaints have been filed with or made to the Board of Transportation relative to the change in method of charges for chipment of live stock from carloads to hundred pounds, except an informal complaint from Paxton and the resolutions adopted and sent out by the Northwestern Stock Growers' association, Alliance, Neb.

On the adoption of the change in system of charges August 16 1891, the secretaries made inquiry of the railroads as to the effect of the change in rates for shipments of live stock. All roads of whom inquiry was made informed the secretaries that it was not the purpose of their roads to increase rates, but to adhere as closely as possible to the old carload basis. ment regarding freight rates:

purpose of their roads to increase rates, but to adhere as closely as possible to the old carload basis.

On receipt of the resolutions from the Northwestern Stock Growers' association the railroad companies were asked to make a showing in support of their claim that rates on live stock had not been raised. A meeting with the railroad officials was held by the secretaries, at which no definite conclusion could be arrived at, and a hearing was ordered at South Omaha November 22, 1887. At this hearing all the railroads in the state were represented and quite a voluminous amount of testimony was taken, an examination of which induced the secretaries to recommend to the Board of Transportation the adaption of an order to the railroads, restoring the old system of charges by the carload, which recommendation and order were adapted by the board. In addition to the testimony of Mr. Van Boskirk, shippers from the west and northwest who haspened to be in South Omaha at that time were called in and aworn. Their testimony was uniformly in favor of an increased cost to the shipper over the old rates. All the testimony offered by shippers related to shipments from points on the E.k. horn, the B. & M. and the Union Pacific. Mr. A. Newberry shipped from Cody, Neb. November 22, 1897, a carload of twenty-six cattle at a cost of \$58.28, as per freight bill filed with the secretaries. Under the old system it e maximum amount he would have paid would have been \$2.80, or \$5.48 less than under the present system.

id would have been \$52.80, or \$5,48 less than der the present system. WHERE THE INCREASE LIES. Here the secretaries insert the statistics gathered from railroads and other sources. and then conclude the statement as follows and then conclude the statement as follows:

It is not in evidence in this case, but it
is said to be a fact that most, if not all,
cattle shipments made over the Union Pacific, the B, & M, and the Fremont, Elkhorn
& Missouri Valley from the west and northwest are made in thirty-six-foot cars. This
fact in connection with the showing made
by the other roads as to the increase in
profit in the thirty-six-foot car over the
shorter car may reconcile the apparent con-

by the other roads as to the increase in profit in the thirty-six-foot car over the shorter car may reconcile the apparent conflict in the testimony between the stock shippers and the rallroads, the one claiming an increased cost for the same service, while the other claims a loss, or at least no substantial gain, under the change in the system of charges.

Under the carload system a thirty-foot car was taken as the standard and a thirty-six-foot car was charged for at an increase of 18 per cent, so that a standard car from McCook or from any station on any other line of road making the same charge would be \$8. To this charge for standard car add 10 per cent for thirty-six-foot car will give a rate of \$41.80 by the carload, But a thirty-six-foot car has 30 per cent greater capacity than a standard thirty-foot car, whereas under the carload system only 10 per cent was added to the charge over a thirty-foot car, Hence, in the change of system, with the thirty-foot car as the standard, the full capacity of the thirty-six-foot car would be charged for, and instead of \$41.80 for a thirty-six-foot car for the same car from the same point, with the same load, the charge would be (by the hundred pounds) 10 per cent more than by the carload, or 20 per cent more than by the carload, or 20 per cent above the standard, or \$45.60.

Applying this theory to Mr. Newberry shipment from Cody to South Omaha, the following results will appear. Old rate, \$48, 20 per cent haded for thirty-six-foot car, \$5.50, paid by Mr. Newberry, new rate, \$5.50, paid by Mr. Newberry, new

A RELIC OF THE PAST.

Burgical Operations for the Cure o Piles and Rectal Diseases no Longer Necessary.

A Medical Discovery Which will Change the Treatment of All

It has long been thought not only by son physicians but by people in general that the common painful and exceedingly annoying trouble, piles, was practivally incurable by any other means than a surgical operation and this belief has been the cause of years of needless suffering, because of the natural dread of surgical operations.

There are many salves, cintments and similar remedies on the market which afford some relief in cases of piles, but the Pyramid Pile Cure is the only preparation so far introduced that can be reliably depended upon to cure to stay cured, every form of itching, bleeding or protruding piles.

Mrs. M. C. Hinkley of 601 Mississippi St. Indianapolis, was told by her physicians that nothing but a surgical operation costing between seven and eight hund ed dollars, could cure her as she had suffered for 15 years; yet even in such a case as hers the Pyramid Pile Cure accomplished a complete cure. She says: "I knew an operation would be death to me and tried the Pyramid with very little hope and it is not to be wondered at that I am so enthusiastic in its praise."

Mr D. E. Reed of South Lyons, Mich. says I would not take \$500 and be placed back where I was before I used the Pyramid Pile Cure, I suffered for years and it is now cighteen months since I used it and not the slightest trace of the trouble has returned. The Pyramid Pile Cure is sold by nearly druggists at 50 cents and \$1 per package

and as it contains no opium, concaine or polsonous drug can be used with per-No one need suffer from piles in any form who will give this excellent remedy a trial. Send for book on cause and cure of piles, sent free by addresing Pyramid Drug Co., Marshall, Mich., (formerly Albion, Mica.)

BARTLEY ASKS DISMISSAL. At the last sitting of the supreme court an order was issued requiring the attorney general to file his briefs in the Bartley case on or before the 30th day of November. This was after a motion had been filed by Bart-

of December in order that the required tendays' notice could be given. Today a further extension was made until December 15, because of the following application made by J. Dewesse at attorney for the B. & M.

In the making of said change the interstate rates to Kansas City and other points will necessarily be affected, and the rates to such points being interstate rates, cannot be legally changed from what they are at present whibout giving legal notice as required by the Interstate Commerce commission. And this defendant represents to the board that it has already sent out notices to the Interstate Commerce commission to the interstate Commerce commission of the interstate Commerce commerce commerce commerce commerce commerce commerce commerc

Consideration of the second Yesterday afternoon an inquest was held Yesterday afternoon an inquest was held pany worked all day in clearing the accu-for the purpose of inquiring into the death, mulation of snow off the tracks of the stub of William Bang, the man found dead in Albright early yesterday morning. Police Officers Deters, Sheehan and Riches testified es to the finding of the body and also the surroundings. The accident occurred at I wentieth and Z streets. Bang was seem as late as 11 o'clock Friday night by a police man and he still had three orders of goods to leliver. It is thought that he became bewildered in the snow storm and in trying to take a short cut the wagon was overturned. When found the seat of the wagen was laying across the back of the dead man end the weight of the vehicle was holding it there. Dr. Siabaugh was called and stated that he had made an examination of fifth and N streets, a son. he body and in his opinion death had been caused by concussion of the brain. act that Bang lay out in the storm for at east six hours also had something to do ing after fusiness matters. with his death. Deceased was a single man and lived at 512 South Ninth street, Omaha. Stott's stationery store, 2406 N street. After considering the testimony a verdict of Arrangements for the funeral are yet in-

John B. Mayo and H. Decamp, the suspicious characters held by the police for complicity in a recent hold-up, were brought into police court yesterday afternoon and kota. escaped being charged with highway robbery on account of an incomplete identification Cedarholm, the stranger who reported to the police that he had been held up and w. A. accommer. Eighteenth and Many the men, but said that he could not swear positively that they were the guilty parties.
